B. JOSHUA DANIEL

FRONT-END DEVELOPER | ANGULAR & NODE.JS

Madurai, Tamil Nadu | 9789405333 | joshuadaniel.dev@gmail.com

Portfolio: https://joshuadaniel.netlify.app/ | GitHub: https://github.com/Joshgit25

PROFESSIONAL SUMMARY

Front-End Developer with 1.6 years of professional experience specializing in Angular, TypeScript, HTML5, CSS3 and Bootstrap. Experienced in developing P2P web applications, full-stack Admin and User Panels, responsive interfaces, authentication and authorization flows, RESTful API integration, Node.js back-end services, rate limiting and MySQL database integration.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, TypeScript, Angular 19, Bootstrap 5, Responsive Web Design
Angular: Reusable Components, Data Binding, Service-Based Architecture, RxJS, HTTP Interceptors, AuthGuard, AuthService, SessionService
Backend: Node.js, RESTful API Integration, JWT Authentication, Rate Limiting, express-rate-limit
Database: MySQL
Tools: Git, GitHub, Netlify, Postman, VS Code
Environment: Linux (Ubuntu, Xubuntu), Basic Linux Commands

PROFESSIONAL EXPERIENCE

Spiegel Technologies **Feb 2025 – Jul 2026**

Angular Developer & Node.js Developer | Madurai

- Developed a P2P web application using Angular 19 with data binding, reusable components and service-based architecture.
- Built full-stack Admin and User Panels using Angular 19, Node.js and MySQL.
- Implemented secure authentication flows using HTTP Interceptors, AuthGuard, AuthService and SessionService for token management, route protection and session persistence.
- Implemented API rate limiting with express-rate-limit to help protect backend endpoints from excessive requests and brute-force attacks.
- Created responsive interfaces using HTML5, CSS3, Bootstrap 5 and TypeScript and integrated RESTful APIs.
- Used Postman for API testing and GitHub for source-code version control.

Techpila Technologies **Nov 2024 – Jan 2025**

Front-End Developer Intern | Madurai

- Worked with HTML, CSS and JavaScript through structured front-end development tasks and practical exercises.
- Built a Login Page, Registration Form and W3Schools-inspired UI as part of hands-on training.

PROJECTS

Personal Portfolio Website | Angular 19, TypeScript, HTML5, CSS3, Bootstrap

Live: https://joshuadaniel.netlify.app/ | GitHub Pages: https://joshgit25.github.io/joshua-daniel-portfolio/

- Designed and developed a responsive personal portfolio to showcase technical skills, professional experience and web development projects.
- Implemented responsive layouts and dark/light theme functionality.
- Created interactive About Me, Skills, Projects and Contact sections, with focus on user experience, visual design and performance optimization.
- Deployed on Netlify with source code maintained on GitHub.

Coffee Website | HTML5, CSS3, JavaScript

Responsive multi-page brand website with product pages, contact forms and interactive UI using a mobile-first design.

CRUD Application | HTML, CSS, JavaScript

Dynamic record-management application with form validation and DOM manipulation without external frameworks.

EDUCATION

B.Com (Computer Applications) | The American College, Madurai | 61% **2021 – 2024**

CERTIFICATIONS

Web Development (HTML, CSS, JavaScript) — CORIZO
Diploma in C, C++ & Java — CCI Computer Education | A+ Grade, 83%
